First Five funded Programs: (Any individual or family who is pregnancy or who has a child 5 years or younger in their life, not necessarily in the home)

- **Nurturing Parenting - FREE**
12-week support group
Evidenced-based parenting skills
Master's level clinicians/facilitators
Court-approved
Child care provided

Parents and children come together and have a meal and do an activity together halfway through this nurturing and communication group. The goals of Nurturing Parenting are to prevent recidivism in families receiving social services and lower the rate of multi-parent teenage pregnancies, reducing the rate of juvenile delinquency and alcohol abuse, and stopping the intergenerational cycle of child abuse by teaching positive parenting behaviors.

- **Family Resource Center - FREE**
Drop-in or by appointment
No one turned away
All Morongo Basin resources represented; computer workstations
Developmental screenings with results that day

Families with children 0-5 or who are pregnant can meet with a Case Manager who assesses the family needs, develops a care plan to best meet those needs and advocates for the family under a variety of circumstances. The goal of our case management services is to advocate for the client, educate them regarding community resources and empower them to eventually obtain assistance on their own.
